Since 1966, Brant Custom Machining has been providing quality machined parts our customers depend on. We combine the scope of our experience with the latest technology, such as the Okuma LB25 CNC Lathe. This state-of-the-art lathe (14.17" diameter, 49.21" long, 30 hp) offers extremely high accuracy. With this and other machining upgrades, we bring outstanding quality to your job.

VERTICAL & HORIZONTAL MILLING

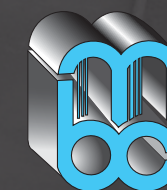

- Speed & accuracy up to 60" travel

OKUMA MC-V4020

- 40" X 20" Capacity, CAT 50
Spindle with thru spindle coolant, 32 ATC.

Our versatile equipment is ideal for a wide range of grinding, milling, turning and welding tasks. Whether the assignment involves the fabrication of new equipment, or rebuilding and repair, you can count on Brant Custom Machining.
